Key Discussion Points & Action Items:

Navigation Improvements

- Implement a Back button for improved user navigation.

Milestone Date Restriction

- Users should not be able to set milestones for past dates.
- Validation must be added to prevent backdating.

Scroll Behavior / UI Fixes

- Address overflow issue on fixed containers.
- Ensure scrolling works correctly across all sections, especially in areas with fixed positioning.

Resubmission Functionality

- Add a resubmit option for freelancers to update or resubmit applications if necessary.

Application Redirection

- Once a freelancer applies for a job, they should be redirected to their Account Page for confirmation or next steps.

Conditional UI Elements

- A specific button on the Account Page should be hidden until the user is approved.
- Ensure role-based or status-based visibility for such elements.

Job Viewing Filter

- Implement functionality to view jobs based on specific time filters (e.g., today, this week, upcoming).

Payments Section

- Create a separate, dedicated section to manage and view payments.
- Include a dashboard view summarizing transactions.
