

Software Design Meeting Minutes

Date: 27 April 2025

Attendees:

1. Phetho Nemavhola
2. Paballo Lipopo
3. Nsovo Nkuna
4. Vhulenda Mashamba
5. Ezra Nkontwana
6. Khutso Mashapu

Agenda:

- System modifications and upcoming documentation tasks

Key

Decisions & Action Points:

1. Login Page Update:

- The traditional login functionality will be replaced with third-party authentication (e.g., Google Sign-In).

2. Admin User Stories:

- The team will define and finalize the user stories for the Admin role to clarify their responsibilities and interactions within the system.

3. Diagrams and Documentation:

- All architectural diagrams must follow the **4+1 View Model**.
- A total of **seven diagrams** are now required:
 - Previously completed: Use Case, Logical, Development, and Physical views.
 - Newly added: **Sequence Diagram** and **State Diagram**, to be completed this week.
 - One remaining view (Scenarios/Use Cases) already covered through user stories and use case diagrams.
