Purpose:

To review the client's feedback from the 14 April meeting and finalize team responsibilities moving forward.

1. Recap of Client Feedback

- The team went through all points discussed with the client during the meeting on **14 April**.
- Key takeaways included:
  - Completion of 6 new user stories (excluding the 4 already done).
  - Clear division between filter and search functionalities.
  - Removal of notification user story, replaced with an email to client feature.
  - Deployment on Azure is mandatory.
  - Code coverage must reach at least 50%.
  - Website must reflect good UX/UI design (extra 10 marks available).
  - UML diagrams and 4+1 architectural views required with proper syntax.
  - All features must be fully deployed by the next Monday meeting.

2. Task Allocation & Roles

The team assigned specific responsibilities to ensure all requirements are met

NOTE:Each member is responsible for updating Trello and documenting their progress clearly

.

3. Next Steps

- Everyone must start working on their assigned tasks **immediately** to meet the deployment deadline.
- Code coverage reports must be generated and monitored.
- The team will hold daily check-ins for MVP week to track progress and assist where needed.
