USER STORIES

LOGIN

USER STORY

WHO: As a client

WHAT: I want to log in with my Google account

WHY: so that I can have access to my account features

USER ACCEPTANCE TEST SUCCESS CASE

GIVEN the client has a registered Google account linked to their website account

WHEN the client selects "Log in with Google" and successfully authenticates via Google

THEN the client is granted access to their account features on the website

USER ACCEPTANCE TEST FAILURE CASE

GIVEN the client attempts to log in using their Google account

WHEN the Google authentication fails (e.g., due to invalid credentials or permission denial)

THEN the system displays an error message stating, *"Google login failed. Please try again or use a different login method."*

BROWSER JOBS

USER STORY

WHO: As a freelancer using the website

WHAT: I want to browse through available job listings

WHY: So that I can find and apply for jobs that match my skills

USER ACCEPTANCE TEST SUCCESS CASE

GIVEN the freelancer is logged into their account on the website

WHEN they navigate to the job listings page

THEN they see a list of available jobs relevant to their profile, and are able to view job details and apply

USER ACCEPTANCE TEST FAILURE CASE

GIVEN the freelancer is logged into their account on the website

WHEN they navigate to the job listings

THEN they do not find jobs that match their skills

ADD SKILLS

USER STORY

WHO: As a freelancer

WHAT: I want to add my skills to my bio

WHY: So that potential clients can see my expertise and consider me for relevant jobs

USER ACCEPTANCE TEST SUCCESS CASE

GIVEN the freelancer is logged into their account and is on their profile page

WHEN they enter new skills in the "Skills" section and save the changes

THEN the system successfully updates their bio to include the new skills, and the freelancer can see the updated skills on their profile

USER ACCEPTANCE TEST FAILURE CASE

GIVEN the freelancer is logged into their account and is on their profile page

WHEN they attempt to save their bio with missing skill sections

THEN the system displays a pop-up message saying, *"Please fill out this field."*

POST JOBS

USER STORY

WHO: As a client

WHAT: I want to post a job

WHY: So that freelancers can view and apply for the job based on their skills

USER ACCEPTANCE TEST SUCCESS CASE

GIVEN the client is logged into their account and is on the "Post a Job" page

WHEN they enter job details, including the job title, description, and requirements, and click "Post Job"

THEN the system successfully posts the job, and the job appears in the list of available jobs for freelancers to view and apply

USER ACCEPTANCE TEST FAILURE CASE

GIVEN the client is logged into their account and is on the "Post a Job" page

WHEN they attempt to post the job with missing required fields (e.g., job title or description)

THEN the system displays a message saying, *"Please fill out this field."*

REMOVE

USER STORY

WHO: The admin

WHAT: Should be able remove users from the platform

WHY: So that they can manage user access and ensure the platform maintains a safe and secure community

USER ACCEPTANCE TEST SUCCESS CASE

GIVEN the admin has access to the user management system section

WHEN they remove a user

THEN the system successfully removes the user from the platform

USER ACCEPTANCE TEST FAILURE CASE

GIVEN the admin has access to the user management system

WHEN they attempt to remove a user

THEN they fail to do so because the system has crashed

FILTER

USER STORY

WHO: As a freelancer

WHAT: I want to filter job listings based on their rate(eg under R1000)

WHY: So that I can focus on jobs that match my expected budget

USER ACCEPTANCE TEST SUCCESS CASE

GIVEN the freelancer is logged in

WHEN they apply a rate filter

THEN only job listings with rates below or equal to the one the freelancer filtered should be displayed(e.g R1000)

USER ACCEPTANCE TEST FAILURE CASE

GIVEN the freelancer is logged in

WHEN they filter a rating that is not available

THEN a pop up message written "no jobs found matching your criteria" should appear
